# PRODUCT FACT SHEET

**JOHAN VAN HENGEL ON THE DESIGN** "Inspired by the shadow-play of layers, FOLDED is based on a seemingly simple bending technique of a single sheet of metal to create pockets which hold and separate your items. Featuring a subtle bolt and hooks for hanging objects, it is a versatile wall mount that can be used in both a practical and a decorative manner - suitable for organizing anything from mail to books, perfumes or spices, or just displaying your favorite belongings, in the hallway, bathroom, bedroom or kitchen."

**PROCESS** Laser cut from metal sheets, these shelves go through a folding. They are then lacquered with an acrylic powder coating.
